Contributions of Each in the Inner Circle?	Showing up strongly when family needs protection.	Bring joy, adventure, ease, peace to the family with ideas for play, trips, creativity. Bring ritual and beauty to the family.	Thoughtful about our future (retirement protection); about our son's safety as a young man growing up with the Internet; safety with Covid; our wellbeing.	Easy going, trusting, connected to family, adaptive, optimistic. Will is a centering energy in our family and can roll easily with change.
